

Getting Started with DecisionDirector

Last Modified on 04/02/2016 10:35 am MST

To get started with DecisionDirector, you need only two things: a DecisionDirector account and an invitation or authorization to participate in or in some other way manage a DecisionDirector project.

Obtaining a DecisionDirector account is easy, all you need to do is [sign up](#). Your email address will be your login.

Invitations and authorizations come to your email. If you receive an invitation before you created your account, DecisionDirector will lead you through the account creation process.

[Accept the invitation](#) or authorization and you'll be on your way to creating and collaborating with your project teammates.
